The screenshot shows a user interface for a Japanese website. At the top, there is a header with '0 POINT' and a management number field. Below this is a 'メッセージBOX' (Message Box) section. The main content area is titled 'チャージ (入金)' (Charge / Deposit) and contains several options for charging points: 'プリペイド番号でチャージ' (Charge with Prepaid Number), 'クレジットカードでチャージ' (Charge with Credit Card), 'ネットバンクでチャージ' (Charge with Net Bank), and 'コンビニでチャージ' (Charge with Convenience Store). The 'プリペイド番号でチャージ' option is selected and highlighted. It includes a text box for entering a 16-digit alphanumeric code, a 'クリア' (Clear) button, and a 'チャージする' (Charge) button. A red box with the number '3' is placed over the text box, and a red box with the number '4' is placed over the 'チャージする' button. Below the charging options are links for 'プリペイド番号発行' (Prepaid Number Issuance), '利用明細' (Usage Statement), 'ユーザー情報の登録・変更' (User Information Registration/Change), and 'ポイントを貯める' (Earn Points).

How to charge Point to your account:

1. Klick 'CHARGE' button on your account page
2. It will show this page
3. Enter the 16 digits Code
4. Klick 'CHARGE'
5. It will show a confirmation page about how many Points are there in the CODE
6. Klick 'CHARGE' button once again to deposit the Point to your account
7. Current Point on your account will change (blinking)
